--Last column in SLO table needs only one choice.
--Since the program title is changing you will also need to revise the paragraph program description.
--On the side-by-side: MATH 107 has corequisite of 108 and needs a placement test. This would add another 1cr, which would change the Liberal Studies requirement to 43-44. Also, 60 on old side for major should be 57.
--Also, controlled electives were deleted, suggest putting options with footnote listing advising. Credits need to be listed as in catalog.
[After the meeting it was discovered that there was no rationale for changing the program title—a sentence from the VOD proposal was adapted and added to the proposal.]
--Provisionally approved on a Fair/Dassier motion
