The best thing to do at this point is to remove mention of BIOL 103 or BIOL 103-104 from the two catalog descriptions. Down the line we may want to make more changes but we'll deal with that when we get there. Please let me know if you need anything else. Thanks, CL.

Subject: BIOL Changes

Dear Carl,

The University-wide Undergraduate Curriculum Committee (UWUCC) received a request to develop a shortened way to change the BIOL requirement in all of the programs and courses that currently list BIOL 103 or BIOL 103-104 as either a Natural Science requirement or as a prerequisite for a course. Your department has two courses listed below that have been identified as currently listing BIOL 103 and/or BIOL 104 as either required or recommended.

The University Senate has approved the UWUCC decision that the departments involved just needed to let UWUCC know which course(s) you would now like to see listed in your courses via an email. Then we would approve that change and forward it to Senate and from the Senate Agenda the catalog editor will be able to revise your listing. This is just a special case to deal quickly with the impacts of the revised BIOL Natural Science sequence. Please email me at gailsech@iup.edu with the change you would like or alternately let me know if your current listing does not need to change. Please let me know if you have any questions. Gail

Your Courses listing BIOL 103-104:

BIOL 151 Human Physiology 3c-2l-4cr
Prerequisites: BIOL 103, or 105, 111, or HPED 221, or instructor

BIOL 261 Ornithology 2c-3l-3cr
Prerequisites: BIOL 111-112 or BIOL 103-104
