## Description of Curriculum Change

### Part II. Description of Curriculum Change

#### 1. FIN 360 Insurance and Risk Management 3c-01-3cr

This course covers the nature of risk, the application of the risk management process to business risk management problems, and the essentials of insurance contracts and insurance markets. Appropriate methods of risk control and risk financing are discussed. The primary focus is on accidental losses resulting from situations involving pure risks, although financial risk management techniques for dealing with speculative risks are introduced.

#### 2. Proposed Change

Old: FIN 360 Insurance and Risk Management  
Prerequisite: FIN 315

New: FIN 360 Insurance and Risk Management  
Prerequisite : None

#### 3. Justification/Rationale

FIN 315 as a prerequisite for FIN 360 is no longer needed because the more recent texts for FIN 360 include spreadsheet problems.

### Part III. Letters of Support

N/A Undergraduate Courses are housed in the same department
