Additional signature (with title) as appropriate		
UWUCC Co-Chairs		3/4/14

**Received**  
**FEB 25 2014**  
**Liberal Studies**

## Part II. Description of Curriculum Change

### 1. Old Catalog Description:

#### **HPED 344 Adapted Physical Activity and Sport**

**3c-01-3cr**

**Prerequisites:** HPED 209, 221

Recognition of structural deviations, corrective exercises, physical activity, and sport for individuals with a wide range of disabilities.

### 2. New Catalog Description:

#### **HPED 344 Adapted Physical Activity and Sport**

**3c-01-3cr**

**Prerequisites:** HPED 209 and one of the following: HPED 221, HPED 256, or BIOL 150

Recognition of structural deviations, corrective exercises, physical activity, and sport for individuals with a wide range of disabilities.

### 3. Justification and Rationale for Proposed Catalog Description Change:

The Department of Health and Physical Education is proposing a change to the prerequisite requirements for HPED 344. Currently, HPED 209 Motor Behavior and HPED 221 Human Structure and Function are the prerequisites for HPED 344. In the past, all HPED students were required to take HPED 221. Now, sport administration majors are required to take HPED 256 Applied Human Structure and Conditioning. Additionally, some athletic training and exercise science students that are interested in attending occupational or physical therapy school take BIOL 150 Human Anatomy instead of HPED 221 Human Structure and Function.

The Department of Health and Physical Education feels that HPED 221, HPED 256, and BIOL 150 are all acceptable prerequisites for HPED 344 Adapted Physical Activity and Sport.
