SUBJECT: Adjustments to Requirements for Majors

TO: UWUCC

FROM: Charles D. Cashdollar, Diane Duntley, Ronald Juliette

Last Spring, because we were all aware that Liberal Studies implementation would compel certain adjustments to degree requirements for majors, you directed the three of us to survey the situation, contact departments, and prepare recommendations for your action. You asked us to divide the changes into categories so that you could approve "routine" adjustments without extended consideration.

We met during the summer, drew up preliminary proposals, and sent those to departments. We have most of the responses back, and are submitting to you, for your action, this report.

Remaining programs will be submitted to you as soon as we receive replies from departments.

A sheet explaining our "categories" is attached.

CATEGORIES: ADJUSTMENTS TO DEGREE REQUIREMENTS:

1. **Routine:**
 - a. Courses prescribed under GE continue to be prescribed under LS (for instance a program requiring CH 111-112 as the laboratory science continues to require that as the Science option under LS).
 - b. No change in free electives beyond the 1-3 sh alteration implied in changing from 52 sh General Education package to a 53-55 sh Liberal Studies package.
2. **Slight:**
 - a. Calls for one of the following:
 - (1) deleting a course prescribed under GE because it will not meet criteria for LS and the department does not choose to preserve the requirement in any other way
 - (2) moving a course prescribed under GE to the major because it will not meet LS regulations. This will increase the major by one course and decrease free electives equivalently.
 - (3) moving a course from a list of courses required by the major to LS because it will be appropriate as a LS course. This will increase free electives.
 - b. Makes no other changes beyond the usual 1-3 sh adjustment in free electives.
3. **Significant:** Involves changes of sufficient magnitude that we have asked the department to submit a "Change of Program" proposal to the UWUCC.

ADJUSTMENTS TO MAJOR PROGRAMS--LIBERAL STUDIES IMPLEMENTATION

College of Business:

Routine adjustment:

~~BS in Ed Business Ed~~

Slight Change # 1:

BS in Ed Business Ed

BS in Ed Marketing and Distributive Ed

In both programs, BE 335 Business Machines is currently prescribed as a Gen Ed Natural Science/Math elective. ASBED does not believe the course will meet criteria for Liberal Studies electives nor does ASBED wish to add the course to its major.

ACTION: delete the requirement. [ASBED intends to incorporate the material into other courses, and when current students have been phased out, it will likely ask to delete BE 335 as a course.]

Slight Change # 2:

BS Accounting
BS Office Administration
BS Finance
BS MIS
BS Management
BS Marketing
BS Business pre-law

In each of these programs, allow EC 122 to count as a Liberal Studies elective, thereby reducing the Business Core by 3 credits and increasing free electives by 3 credits. [All these look pretty much alike, so only the accounting one is xeroxed.]

*All four-year programs in College of Business are included in this report.

College of Education:

No replies so far.

College of Fine Arts:

Significant Change:

programs in the Department of Art and Art Education
programs in the Department of Music

[Departments are considering changes and will submit
proposals.]

~~College of Human Ecology and Health Sciences:~~

Routine adjustment:

- BS Dietetics
- BS F&N Science
- BS HRIM
- BS in Ed Nutrition Ed
- BS Child Development
- BS in Ed Home Ec Ed
- BS Safety Science

Slight Change:

BS Nursing

Move PY 151/161 from a list of "other requirements for the major" to the LS Electives category. This allows the degree program to stay at 125-126 sh rather than rising from 126 to 128-129.

Move PY 150 to LS; Keep PY 151/161 in "other requirements." Means changing total credits from 126 to 128-29 since other science requirements cannot be used in LS electives. UWCC wishes to preserve at least one LS elective for student choice rather than prescribe all of them.

College of Natural Sciences and Mathematics:

Routine:

BA Biology
BS Biology
BS Environmental Health
BS in Ed Biology Ed
BA Chemistry
BS Chemistry
BS in Ed Chemistry Ed
BA Computer Science
BS Computer Science
BS Geology
BS Geoscience
BS in Ed Earth and Space Science
BS in Ed General Science Ed
BS Natural Science/ pre-Astronomy
BS Natural Science/pre-Meteorology or Oceanography
BS Natural Science
BS Applied Math
BS Mathematics
BS in Ed Math Ed
BS in Ed Physics

Slight Change:

BA Physics
BS Physics

In both programs: add 8 credits to the major and reduce free electives by 8 credits; in BS Physics: specify CH 113-114 as Natural Science sequence.

*Note: the Physics Department will withdraw this proposal should the UWUCC and Senate concur in the LSC's recommendation for a rule modification on major courses in knowledge areas.

Withdrawn

College of Humanities and Social Sciences:

Routine:

BS in Ed Social Science Ed/Economics
BA French
BA French/FLIT
BS in Ed French
BA Journalism
BA Philosophy
BA Philosophy/pre-law
BA Religious Studies
BS in Ed Social Science Ed/anthropology
BS in Ed Social Science Ed/sociology
BA Spanish
BA Spanish/FLIT
BS in Ed Spanish

Withdrawn
Slight Change:

For all their programs not listed above, the departments of Economics, English, Political Science, Sociology-Anthropology have proposed slight changes involving the movement of 3-6 sh from General Education to the Major; this results in an increase of credits in the major and a decrease of free electives.

*Note: These programs will be withdrawn and reconsidered should the UWUCC and Senate concur in the LSC's recommendation for modification in the use of major courses in knowledge areas.

PROGRAM REVISION FOR B.S. in Accounting

Excluded prefix in Liberal Studies Knowledge Area: AG

LIBERAL STUDIES:

(specified course)

✓Two English Composition courses:		7
✓Mathematics course:	<u>MA 121</u>	4
✓Humanities-History		3
✓Humanities-Philosophy/Religious Studies		3
✓Humanities-Literature		3
