DRIVING UNDER THE INFLUENCE OF ALCOHOL OR A CONTROLLED SUBSTANCE**

WHAT CONSTITUTES A DUI (DRIVING UNDER THE INFLUENCE)?
The penalties for driving while under the influence of alcohol or drugs are severe.

- In Pennsylvania, if you are of legal drinking age (21 or older), you are considered to be driving "while under the influence" if your **blood alcohol level is .08 or higher**.
- But, you also may be convicted of DUI at lower BAC levels, if you are stopped by police for driving erratically (too slow, too fast, straddling your lane, making wide turns, stopping for no reason, failing to obey traffic signs and signals, etc.).

PENNSYLVANIA'S IMPLIED CONSENT LAW (CHEMICAL TESTING FOR ALCOHOL OR DRUGS)
The Implied Consent law is very important to you as a driver.

The law covering chemical testing says you have:

- agreed to take such a test -- just by being licensed to drive in Pennsylvania.

If the police arrest you for driving while under the influence of alcohol or drugs and you refuse to take one (1) or more chemical tests of breath or blood,

- your driving privilege will be automatically suspended for one (1) year.
- This suspension is in addition to the suspension imposed for a conviction or Accelerated Rehabilitative Disposition (ARD) for driving while under the influence.

- If you refuse chemical testing and have had a prior DUI conviction or a prior refusal for chemical testing, you will face an 18-month suspension for the refusal, plus 18 more months for the DUI conviction, for a total suspension of three (3) years.

DRIVING UNDER THE INFLUENCE OF ALCOHOL OR A CONTROLLED SUBSTANCE
WHAT CONSTITUTES A DUI (DRIVING UNDER THE INFLUENCE)?
ZERO TOLERANCE LAW (UNDER 21 DUI)

- The Zero Tolerance law establishes serious consequences for those under 21, who drive with **any measurable amount** of alcohol in their blood.

WHY ZERO TOLERANCE?

- Traffic crashes are the number one (1) cause of death for teenagers in the United States.
- Driving involves multiple tasks, the demands of which change continually. To drive safely, you must be alert, make decisions based on ever-changing information present in the environment and be able to maneuver based on these decisions.
- Drinking alcohol impairs a wide range of skills necessary for carrying out these tasks.

If you are under 21 and are convicted of DUI for the first time, you will go to jail for a term ranging from two (2) days to six (6) months, your license will be suspended for a full year, and you will pay a fine of \$500 to \$5,000.

- In addition, if you are underage and are arrested and detained for blood, breath and/or urine testing, parental consent to conduct these tests is not required, but the police will notify your parents of the arrest.
- The minimum penalty for underage drinking is a fine of up to \$500 plus court costs.

Lessons and Hints to Work With Your New Teen Driver

- These resources are based on a behind the wheel program that is used by trained driver education teachers.

Purpose :

- to give adults supervising practice driving with a teen driver, an orderly, standard routine.
- To provide objectives and methods similar to those used by in-car driving instructors that may:
 - reduce stressful situations for adult and teen.
 - reduce risk by allowing the teen driver to gradually progress through skill levels and driving environments.
 - The "Be Ready, Be Safe, Be Responsible" approach, is the motto used by the Novice Driver Statewide Program, and is used in the PA Perceptual Driving Curriculum.
