

IUPUI The Advisor Advocate

The Crimson Network is a networking site exclusive to the IUP community! Users can connect with various alumni, mentor students, as well as find and apply to jobs.

Signing up takes only a few minutes!

Mentor or Mentee: Supporting One Another

By following the  **Mentoring** tab, students can find the perfect mentor! Not only can we sort potential mentors by location, the site can match mentees with current industry professionals. Student can indicate on their profile what help they need from potential mentors (see right).

Seek Mentoring

- Mentoring for students
- Career Advice
- Resume Review
- Internship

Willing to help

Becoming a mentor is just as easy! Mentors can select any of all of the following:

- Introduction to connections
- Open doors at the workplace
- Answer industry specific questions
- Meet for coffee
- Speak to admitted students about the IUP experience

Whatever you select will appear on your profile, and interested mentees can contact you through the site or any other contact information you provide.

Job Board Posting: Real Jobs from Real People

From its launch in June of 2020, **over 12,600 jobs** have been posted to the site. Work includes full- or part-time, internships, and volunteer roles. There are hundreds of active job postings across a multitude of industries. Jobs are vetted by an IUP community member before being published to the site, meaning the positions are legitimate.

The site makes it simple to find the best fit for you; in addition, many of these positions come from alumni already on the platform, making them the ideal person to ask about the position.

Connection

The site is a great asset for students (and alumni) who want to build and strengthen their professional connections. The Crimson Network is created for and maintained by the IUP community. Users can join groups related to their interests, attend events, and reach out to people willing to give their time to help one another succeed!
