Overview

IPEDS Student Financial Aid Component Overview - Academic Reporters

Welcome to the Student Financial Aid (SFA) survey component. The purpose of the SFA component is to collect information about financial aid provided to various groups of undergraduate students and military/veteran educational benefits for all students at your institution.

Data Reporting Reminders:

- Report data to accurately reflect the period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Undergraduate Student Counts
You will be asked to report information for:
 - All undergraduate students
 - Full-time, first-time degree/certificate-seeking undergraduate students (FTFT)
 - FTFT undergraduate students who (paid the lower of in-state/in-district tuition rate for public institutions and) were awarded any grant/scholarship aid from the federal government, state/local government, or the institution
 - FTFT undergraduate students who (paid the lower of in-state/in-district tuition rate for public institutions and) were awarded any Title IV federal student aid

- COA Revisions
Revisions to Cost of Attendance (COA) used to calculate the net price of attendance can be made in this component. Consult the instructions and screens to make sure you are reporting the correct aid amounts for the correct groups of students.
- College Affordability and Transparency Lists
Net price amounts calculated in SFA will be used to populate the U.S. Department of Education's College Affordability and Transparency lists.
- Interactive Edits and Error Messages
SFA contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk at (877) 225-2568 for resolution.
- Context Boxes
You will find optional text boxes throughout SFA. Context boxes allow you to provide more information about the data you enter. Some of these context boxes may be made available to the public on College Navigator, so make sure that the information you enter can be understood easily by students, parents, and the public.

Changes to reporting:

The following changes were implemented for the 2023-24 data collection period:

- Removed the 'Groups terminology'
- Renumbered lines on screens and in instructions
- Reiterated instructions on what is reported in each part for specific students and reporting periods
- Rephrased "room and board" terminology in survey materials to "food and housing," including Glossary terms
- Added FAQ regarding inclusion of incarcerated students
- Revised FAQ regarding experimental site participants

Comparison Chart

Reporting Reminders:

- Based on the information reported on the previous screens for all undergraduate students and full-time, first-time degree/certificate-seeking undergraduate students, this comparison chart seeks to help institutions check their reported data. Assuming the information reported is correct, the calculated fields for 'All Other Undergraduate students' should be the balance. Similarly, comparison chart values for all degree/certificate and all non-degree/ certificate undergraduates should match the total reported in columns 1-4 in Section 1, Part B. If the balance does not check with your institution's calculations, please correct your reported numbers before moving forward with the completion of the SFA survey component.
- Data for all degree/certificate seeking undergraduate students and full-time, first-time undergraduate students are published on College Navigator.

Note:

- Data for the 'all other degree/certificate undergraduate' students and all non-degree/certificate undergraduate students will appear in the IPEDS Data Center for data users, but not in College Navigator.

Student Financial Aid

Upload File	The average amount of this type of aid awarded to FTFT Undergraduate students is outside the expected range of between 3,268 and 4,632 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	A majority of our institutional scholarship aid is based on academic merit with increasing award values based on demonstrated academic performance. In the fall 2022, the university admitted a larger number of students who were eligible for our higher tier awards. We had 59 more students receiving institutional grant and scholarship aid and more students receiving larger awards due to stronger academic performance when compared with the fall 2021 cohort.			
Upload File	The average amount of this type of aid awarded to FTFT Undergraduate students is outside the expected range of between 2,989 and 4,353 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	In the fall 2021, the university was able to award more students federal grant funds through CARES/HEERF funds. Those funds were expended prior to the fall 2022 so fewer students received federal grant awards. When not accounting for the CARES/HEERF funds in fall 2021, our average amount of federal grant aid to FTFT students was 5,431.			
Upload File	The average amount of this type of aid awarded to FTFT Undergraduate students is outside the expected range of between 12,244 and 13,608 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	In the fall 2022, the university moved from a per-credit tuition pricing plan to a flat rate tuition pricing plan for in-state undergraduate students. As a result of this change, students were paying less to attend our institution and therefore had to borrow less in loans; additionally more students qualified for higher institutional scholarship awards which also resulted in reduced borrowing.			
Upload File	The average amount of this type of aid awarded to FTFT Undergraduate students is outside the expected range of between 7,978 and 9,342 when compared with the prior year value. (Error #7169) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	During the COVID-19 pandemic, institutional housing options were limited resulting in an increase in the number of students living in off-campus housing in the 2020-21 academic year.			
Upload File	The number entered is outside the expected range of between 72 and 132 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason	Due to the pandemic and the on-campus housing restriction which only permitted freshmen and international students to reside on campus, more students resided in off-campus in private local housing than in the past.			
Upload File	The calculated average amount of grant or scholarship aid awarded to FTFT awarded Title IV Aid students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	For the 2020-21 academic year, the university continued to utilize a merit component in our institutional need-based grant algorithm. Funds were awarded based on a combination of both need and high school performance (GPA, SAT).
