

Indiana University of Pennsylvania Academic Year 2025-26 and 2026-27 Proposed Student Fees

Each year at the December IUP Council of Trustees meeting, a Student Fee Proposal book is presented. It includes any proposed changes to existing fees and proposals for new fees for council review and action.

Board of Governors Policy 1999-02A: This policy now requires the board of governors to approve tuition rates for a two-year period, with the second year being tentative. Therefore, IUP student fee changes requested will be for two years, covering academic years 2025-26 and 2026-27.

Unless otherwise noted, all approved fees will be effective beginning in the fall 2025 semester.

Indiana University of Pennsylvania FY2025-26 and FY2026-27 Proposed Student Fees

Each year at the December IUP Council of Trustees meeting, a Student Fee Proposal book is presented. It includes any proposed changes to existing fees and proposals for new fees for council review and action.

Board of Governors Policy 1999-02A: Tuition was revised on July 10, 2019. This policy now requires the board of governors to approve tuition rates for a two-year period, with the second year being tentative. Therefore, IUP student fee changes requested will be for two years, covering academic years 2025-26 and 2026-27.

Unless otherwise noted, all approved fees will be effective beginning in the fall 2025 semester.

The following motion will be presented for approval at the public meeting.

FY2025-26 and FY2026-27 Proposed Student Fees

The committee reviewed the FY2025-26 and FY2026-27 proposed student fees.

The following motion is recommended for approval:

THAT THE FY2025-26 AND FY2026-27 PROPOSED STUDENT FEES BE APPROVED.

Indiana University of Pennsylvania Fee Analysis: Brief Summary

I-Card Services and Production Fee

The I-Card Services and Production Fee is assessed on all students who attend IUP in the fall and spring semesters. The request is to increase the fee from \$7.50 to \$10 (\$15 annually to \$20 annually). The revenue generated by this fee is used for the setup of all new I-Card accounts, maintenance of existing I-Card accounts, and management of the CBORD Management System (Crimson Cash).

The I-Card Fee is used to support student I-Card operations, the software technology license for the student IDs, supplies, ID cards, and administration of the student I-Card program. The fee also supports ID production, as well as the software licensures necessary to maintain the ID and vending system across campus.

With changing technology, the cost of card production is scheduled to increase due to changes necessary to replace the outdated technology used to produce the cards and to provide students with smart cards or proximity cards, which are now industry standard and more secure/user-friendly. The newer, more updated technology comes with a higher cost to produce and maintain student IDs across campus and to allow access on students' phones.

In addition to the ongoing cost increases described above, all I-Cards will need to be replaced because of necessary changes in the Banner numbering system. It is estimated that more than 10,000 current I-Card users will need a replacement card over the next year. It is advised that this be outsourced, which will create an additional expense to the I-Card office budget that is not currently accounted for. It should be noted that the OneSIS project costs to replace I-Cards are one-time costs and are not ongoing, as the other cost increases are.

Note: Other Pennsylvania State System of Higher Education universities do not have a specific student ID fee, but it is included in their overall Student Service Fee.

Indiana University of Pennsylvania Fee Analysis: Brief Summary

Transportation Fee

The Transportation Fee is a flat rate assessed each semester on all students. The request is to increase the fee each semester from \$18 to \$25. The revenue generated by this fee supports transportation and parking systems.

The Transportation Fee supports costs associated with both transportation and parking services for students. It pays for the Park n Ride shuttle that carries students around campus—the shortest bus loop for students and one that helps them get from the residence halls to other areas of campus and beyond. The loop also makes a stop at the hospital. This is the main mode of transportation to get to the Robertshaw long-term parking lot.

This recommended fee increase will pay for additional service hours for students, which they have been requesting. Over the past few years, students have requested that service hours be extended later into the night. Beginning in academic year 2024-25, the Park n Ride will operate until 12:55 a.m., extending service for students an additional two hours every night of the week. These extended hours increased what IndiGo charges IUP. In addition to increasing service hours for students, the contract cost of the service agreement for IndiGo has increased 7.5 percent over the past two agreements, which cannot be absorbed without an increase in the fee. The fee also pays for administration of the office and for parking lot maintenance needed throughout the academic year. Line painting and improved signage are constantly being monitored and improved as needs and student suggestions are taken into account.

Fee Analysis: Brief Summary**

Room Rates: One-Person Single, Private Suite Style Room Only (No other rates are being recommended for changes at this time.)

The Housing Fee supports the IUP Housing Auxiliary for Phases 1, 3, and 4. The Tuition Model and Pricing Workgroup carefully examined housing rates and is proposing a rate change for the one-person single, private suite style room. No recommendations for any other room or suite styles are being proposed currently. The Foundation for IUP sets the rates for Phase 2, and those are subject to change at the authority of the foundation board.

Indiana University of Pennsylvania Fee Analysis: Brief Summary

Meal Plan Fees

The Meal Plan Fees support the IUP Dining Auxiliary fund. With careful consideration for students, IUP has not increased dining rates for more than six years, even though costs have been increasing each year. The workgroup is recommending a proposal in which places IUP's meal plan rates at approximately 5 percent above the current State System average. It is anticipated that many schools will increase their rates this year, and those rate increases are expected to be somewhere between 3 percent and 10 percent. The workgroup felt this recommendation would position IUP's projected revenue to be better aligned with the increased expenses that had been absorbed over the past six years, when there were no rate increases, and should close the budget deficit. The workgroup also felt this was the most student-centered approach; it believed this was the maximum increase students could absorb at one time.
